

JUNE.9.2026

AI DAY

Session title goes here

HOST PRESENTER NAME

Why **now**?

THE STATE OF AI AT THE WEATHER COMPANY

A three-year AI commitment

By 2029, every team will have AI in their daily workflow — not as a novelty, but as core infrastructure. The investment spans three tracks: tooling, training, and culture.

This is about reaching further than we ever could before — with the same people, working faster, with less friction.

BY 2029

\$40M

invested across tooling, training, and culture.

02 — DEMO

Forecasting, rewritten **by AI.**

[image / demo]

A walkthrough of how the forecasting team is using AI to compress two-day workflows into 15 minutes — without losing meteorological accuracy.

HOST PRESENTER NAME

Before / After AI

BEFORE

2 days

Manual data review across six systems, with multiple handoffs and reconciliation steps.

AFTER

15 min

Unified agent surface, single review, automated reconciliation. Same accuracy.

Two perspectives, one direction

WHAT WE'RE BUILDING

Tooling first.

AI shouldn't live in a separate tab, waiting for you to remember it. We're embedding it where the work already happens — in your editor, your forecast pipeline, your design files, your meeting notes. The bar is shorter loops: question to answer, draft to ship, idea to prototype.

HOW WE'LL GET THERE

Training second.

Sharper tools only help if we know how to use them. Every team gets dedicated time to learn, experiment, and share what's working. Wins compound when one team's workflow becomes another team's starting point — that's the multiplier we're after.

The bar isn't whether AI **can do this. It's whether we can move fast enough to use it before it becomes obvious.**

LIVE DEMO

[demo area – clear, no chrome]

~830

Weather Company employees converging on AI Day

FIVE GLOBAL LOCATIONS — ONE COMMITMENT

Take it further.

Abstract line art consisting of several thin, dark red lines that swirl and loop across the right side of the slide, partially overlapping the text 'further.'

Where AI shifts from novelty to leverage

05

Offices converging on a single day, a single mandate

BROOKHAVEN / ANDOVER / BIRMINGHAM / SEOUL / NEW YORK

Three tracks. One mandate.

01

TOOLING

Claude, Copilot, and internal agents to every team by Q3.

02

TRAINING

Hands-on workshops, prompt clinics, ambassador-led sessions.

03

CULTURE

Make AI use visible, rewarded, and the default expectation.

Ambassador spotlight.

RULES

1. One palette per slide (or section).
2. Anchor-dark + anchor-light are constants.
3. Accent-primary highlights ONE word/digit, never all.
4. No team-member names anywhere in the deck.
5. Speaker notes live in the notes pane, not on slide.
6. Lockup always bottom-right.

Build your deck in 4 steps

01

Duplicate a slide

Right-click any slide in the left pane → Duplicate Slide. Or press Cmd+D (Mac) / Ctrl+D (Windows).

02

Replace the text

Click any text to edit. Keep the rhythm: eyebrow → headline → body → caption. Don't change fonts or colors — they're locked.

03

Swap in your image

Right-click any [placeholder] block → Change Picture. The frame shape stays — your image fills it. Use high-res sources.

04

Save your own file

File → Save As → name it for your session. Never edit this master template directly. Add your speaker notes in the Notes pane.
